MAEDICA - a Journal of Clinical Medicine

A valuable Journal of clinical medicine, MAEDICA, has as a main purpose to enrich the quality of the medical practice in Romania through its scientific specialized content.

From the summary:

- the newest studies, research and discussions in clinical medicine nowadays;*
- scientific editorials that reflect an up-to-date synthesis of the results in the newest national and international medical papers and research;*
- a number of clinical Romanian works and also articles from international collaborators;*
- the content of the Journal is in English only.*

The Journal has a great peer-review board and its content respects the international standards of certified quality and originality of the articles.

*Subsequent to the CNCSIS accreditation, the publication was granted **B+**.*

At the present moment, MAEDICA - a Journal of Clinical Medicine is part of the international data bases as follows:

- **PubMed***
- **EBSCO***
